

SSG 5 and SSG 20 Wireless Certification Listing

The SSG 5 and SSG 20 are both available with optional 802.11 a/b/g Wireless capabilities. Due to the fact that there are certain countries that have imposed restrictions on the deployment of Wireless technologies, this document should be used to determine which countries the SSG 5 and SSG 20 Wireless (802.11 a/b/g) products have been certified for shipment.

In the table below, select the region code (-xx) to determine the SSG 5 or SSG 20 Wireless model that needs to be ordered to support appropriate power and channel settings for a particular country listed with “Yes”.

The region code from the table below will replace the XX in red circle.

Ordering Information	Product Part Number
SSG 5	
Security Services Gateway 5 with Serial backup, Wireless 802.11a/b/g, 128 MB Memory	SSG-5-SB-W- XX

Countries listed with “No” have not been certified at this time. Refer to the Juniper price list for exact model number and ordering information. For any additional questions, please contact your Juniper Channel Partner or Account Representative.
