

About This Guide

This preface provides the following guidelines for using the *NMC-RX™ Element Management System User Guide, Vol. 2*:

- Objectives on page xi
- Audience on page xi
- Documentation Conventions on page xii
- Related Juniper Networks Documentation on page xiii
- Obtaining Documentation on page xiii
- Comments About the Documentation on page xiv
- Requesting Support on page xiv

Objectives

This guide provides information that you need to use the NMC-RX application to configure and manage your E-series devices.

NOTE: If the information in the latest *NMC-RX Release Notes* differs from the information in this guide, follow the *NMC-RX Release Notes*.

Audience

This guide is intended for experienced system and network specialists who will use the NMC-RX Element Management System to configure Juniper Networks devices.

Documentation Conventions

Table 1 defines notice icons used in this guide. Table 2 defines text conventions used throughout the documentation.

Table 1: Notice Icons

Related Juniper Networks Documentation

Table 3 lists and describes the NMC-RX books and online resources.:

Table 3: Juniper Networks NMC-RX Technical Publications

Document	Description
<i>NMC-RX User Guide, Vol. 1</i>	Provides an introduction to NMC-RX features and information about the physical and link-layer interfaces supported by the application.
<i>NMC-RX User Guide, Vol. 2</i>	Provides information about routing management, routing protocols, broadband remote access, tunnels, and services.
<i>Online Documentation CD</i>	Provides an online version of this guide and the <i>Release Notes</i> .
<i>NMC-RX Help</i>	Provides an integrated help system that reflects the information contained in this document.
Release Notes	
<i>NMC-RX Release Notes</i>	Include the latest information about features, changes, known problems, and resolved problems. If the information in the <i>Release Notes</i> differs from the information found in the documentation set, follow the <i>Release Notes</i> . Release notes are included on the corresponding software CD and are available on the Web.

Obtaining Documentation

To obtain the most current version all Juniper Networks technical documentation, see the products documentation page on the Juniper Networks Web site at <http://www.juniper.net/>.

To order printed copies of this guide and other Juniper Networks technical documents, or to order a documentation CD, which contains this guide, contact your sales representative.

Comments About the Documentation

We encourage you to provide feedback, comments, and suggestions so that we can improve the documentation to better meet your needs. You can send your comments to techpubs-comments@juniper.net, or fill out the documentation feedback form at <http://www.juniper.net/techpubs/docbug/docbugreport.html>. If you are using e-mail, be sure to include the following information with your comments:

- Document name
- Document part number
- Page number
- Software release version

Requesting Support

For technical support, open a support case using the Case Manager link at <http://www.juniper.net/support/> or call 1-888-314-JTAC (from the United States, Canada, or Mexico) or 1-408-745-9500 (from elsewhere).
